

Support for Women In Goat Ranch Project

A single sustainable goat ranch house for vulnerable women in rural Ghana. The house is divided into six clearly demarcated internal sections, under one shared roof on a proposed 1.5 to 2.5 acres of green pasture. The total cost of the project is \$35000

The image below is the proposed houses for the goat ranch project. The project will have six houses shared among families, using five goats as a starting point for each house/family. Total goats to start with is 30 improved breeds.

i. The central structured will measure (120 x 40 feet).

a. Features:

- a sloped metal roof,
- open-sided walls with wooden/chain-link fencing for ventilation, and
- six equal walled-off rectangular sections in two rows of three – each assigned to 2 families to manage, starting with 5 goats.

Sponsor a Goat Ranch House and Have it Named After You

Cost per Unit/house ===== 35000/6units/houses ===== \$5833

Donate to support us on GlobalGiving link <http://goto.gg/74440>

Cost composition of one house:

- Goats (5 Improved breeds) ===== \$1050
- Land preparation and Infrastructure ===== \$3733
(pens, shelters, fencing on the land,
borehole, electricity and solar panels)
- Training and capacity Building ===== \$ 315
- Veterinary & Feed Start Up ===== \$309
- Processing Equipment ===== \$446
- Total cost of a house/Unit ===== \$5833**

Sponsor a house to have it named after you:

- I. A house cost **\$5833**
- II. You can support by donating as an individual or come together as a group and the house will be named after you or all the group members who donated to that house will have their names written on the house.

Thank you for your Support
